Custom Team Projects

If you already have an idea in mind, we also offer custom projects. In the past, we have done tables, chairs, free-standing coat racks, a bar, a throne, and wall-mounted sculpture. We welcome your ideas and will provide feedback regarding feasibility and cost estimates. These projects typically require 4-8 hours, and have additional costs for the design planning, extra materials, and the pre- and post-production work by faculty.

Custom team build pricing is $100 per person, per hour, plus materials fees that range from $30-$150 depending on the workshop.
